

ESNAD

A MESSAGE FROM OUR CEO

Eng. Abdulrahman Al Koheji

AN END OF YOUR MESSAGE

I must start with a heartfelt **thank you to our clients** for your faith in us in this most challenging year. Your patience, adaptability and trust have helped us persevere, learn and re-strategize through this turbulent time.

This was a year like no other. This year was the birth of **Esnad Management** and within months it was faced with the toughest situation as a start up - a global pandemic. We reacted, we adjusted, we showed compassion, empathy, resilience and efficiency.

Innovation and opportunity have kept us positive and optimistic during this time. We have embraced technology by supporting one another and accommodating our clients virtually and we have grown as a business and as a team.

I shall end the year as a CEO **proud of my team**, proud of our efforts and achievements; and proud of our hardworking, dedicated and passionate family! We should walk into 2021 with memories of the positives, the strengths, what we have learnt, and with a sense of pride, satisfaction and confidence.

I would like to wish you all a **Happy New Year!** May this year bring us all success and good fortune.

Sincerely,

Abdulrahman Al Koheji
