

On behalf of the Esnad Management family, we are pleased to welcome you to the July edition of Esnad's newsletter to share with you all the latest news and updates concerning our projects.

CURV MALL

We are pleased to announce that Curv Mall is now leasing its ground floor shops and offices, with tenants such as salons, dermatologists, restaurants, law firms, and a showroom have officially leased their offices already.

KHADAMAATY APP

We have officially acquired majority shares in Khadamaaty app, which is an online platform that connects customers with their required service providers for home related services such as pipe fitting, maintenance, landscape maintenance, electrical works and more.

Furthermore we have rebranded it to a green color to symbolize growth, harmony and a strong emotional correspondence of safety and trust.

EK TOWER

We are pleased to announce that 75% percent of the listing has been leased, these beautifully designed apartments were a popular demand as they come fully furnished with a variety of attractive facilities ranging from private parking, pool area, to a gym facility and more.

DUBAI BUILDING

We are also pleased to announce our project in Dubai is steadily approaching its completion as it reached a progress of 70 percent.

TIP OF THE MONTH

How to Pest Proof Your Home in Humid Weather?

1. Seal Any Gaps

There are plenty of unsealed gaps in and around your house where pipes and electrical lines enter and can give bugs and rodents an opportunity to invade.

2. Organize Spaces

Keeping your kitchen, basement, and garage organized can help reduce clutter which can be an ideal place for pests to hide and flourish.

3. Moisture Reduction

Pests love air thick with water vapor and heat. Implementing moisture control can help bring down the humidity levels indoors and keep pests away.

4. Cover Cracks

Fixing cracks in foundation or vents and covering holes in walls can prevent cockroaches, ants, and other pests from entering.

5. Prevent Dampness

Often dampness can be caused by leaking pipes or faucets. This can cause water to stagnate and provide a breeding ground for different types of insects.

COMPANY NEWS

We have added "Fawateer" service to our clients.

We have added a new member to the team, Wadeeah Al Ali, who is Esnad's new Marketing Specialist.
